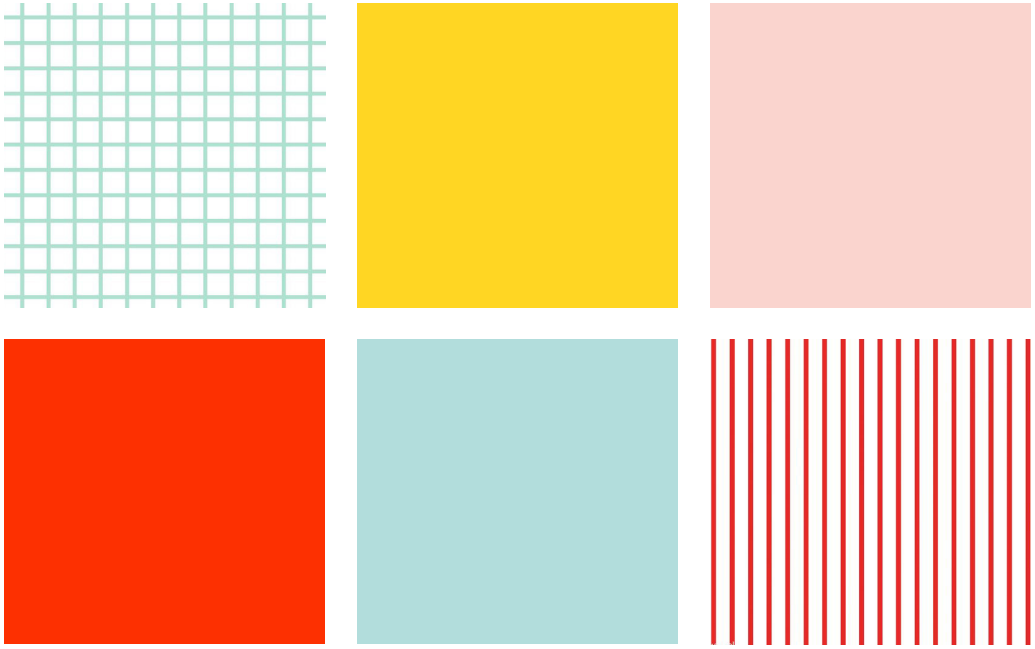
# about
# studio tong tong



Studio Tong Tong is the creative studio of me, Julia Tramm, which is specialized in photo productions in the fields of interior, DIY and kids.

Play, colour and craftsmanship can be found in all of my projects. A sensitivity for editorial demands characterises my work as much as humour and clear lines.

In addition to styling and photography, Studio Tong Tong also offers the conception and implementation of DIY content. Materials such as wood, textile or paper are our core competencies.
